

## Atanasoft® Announces Immediate Availability of AtanaSuite® 2012

Ames, IA – December 29<sup>th</sup>, 2011 - Atanasoft® today announces immediate availability of the **AtanaSuite 2012** family of products. AtanaSuite 2012 contains the latest in technology innovations, showcased by **AtanaSuite ChartTool**.

**AtanaSuite 2012** client products include **ChartTool** functionality as well as many core component library upgrades and Microsoft .NET 3.5 support. **AtanaSuite SyncTool 2012** has also been enhanced to support the Teradata TPT API.

**AtanaSuite ChartTool** tops the list of enhancements for 2012. Almost 50 different 2D and 3D chart types such as line, area, bar, column and pie are included in **AtanaSuite ChartTool**, to help users quickly and easily create the best possible presentation of this information. Printing and saving the creation in a variety of formats is also provided. Microsoft .NET 3.5 framework support and core component library upgrades round out the major enhancements integrated into the **AtanaSuite 2012** product line for maximum productivity gains and benefits. Teradata 14 support will be added as part of a forthcoming **AtanaSuite 2012** maintenance update. **AtanaSuite SyncTool 2012** also gets a major enhancement with the addition of support for the Teradata TPT API. Users can now choose between TPT or FE/FL utilities for use in performing cross server data transfer operations.

“Atanasoft is committed to leading in the development of innovative, productivity enhancing software products and solutions for Teradata. We have also recognized the importance of data visualization in understanding and communicating data warehouse information,” states David Richardson, Vice President of Product Development.

“**AtanaSuite ChartTool** satisfies an important need and joins our previous innovations **IntelliSQL**, **Join Helper**, **CompressTool**, **AtanaSuite Relationships** and **SyncTool** in demonstrating our continuing commitment.”

The **AtanaSuite 2012** product family continues to reinforce **AtanaSuite's** dominant role as the leader in productivity, compression and synchronization products for Teradata.

### The **AtanaSuite 2012** product family consists of the following:

- **AtanaSuite Essential 2012** includes 6 tools (**QueryTool**, **JoinTool**, **SchemaTool**, **ChartTool**, **QueueTool**, **JobTool**) and 3 wizards (**FastLoad**, **FastExport** and **Text File Load Wizards**).
