

Atanasoft® Announces Maintenance Update for the **AtanaSuite® 2009** Product Family

Ames, IA – February 18th, 2009 – Atanasoft announces Maintenance Update 7.2.0 for **AtanaSuite 2009**. This update represents our continuing commitment toward providing the best productivity tools for Teradata. It contains many significant enhancements to the functionality of the **AtanaSuite 2009** product family, as well as addressing reported Teradata issues. This important update is available electronically to all supported **AtanaSuite 2009** customers. It is a direct result of your input through our Support Center. We thank all of you, our customers, for helping us make this update possible. Your feedback is essential for us to continuously improve AtanaSuite, the finest suite of productivity tools available for Teradata!

Maintenance Update 7.2.0 for **AtanaSuite 2009** features:

- **Unicode Support in ScriptTool** - ScriptTool now supports creating, testing and saving scripts using Unicode UTF8 and UTF16 character sets.
- **UTF16 support in all **AtanaSuite 2009** tools** - All **AtanaSuite 2009** tools now support the Unicode UTF16 character set.
- **Result Grid Column Filtering** - A filter button has been added to result grid column headers throughout AtanaSuite. Result grid displays can now be filtered by column values.
- **DeltaTool** - The option to ignore whitespace is now applied to DeltaViewer and the results it displays.
- **QueryTool** - Now supports execute and export of multiple result sets to a single file.
- **FastLoad/FastExport Wizards** - The defaults for the two wizards are now compatible with each other. A file exported using the default FastExport wizard options can now be imported using the default FastLoad wizard options.
- **SchemaTool Text File FastLoad Wizard** - This exciting new wizard makes it really fast and easy to load delimited data into your warehouse using Teradata FastLoad.
- **RoleTool and SchemaTool** - Numerous enhancements regarding privilege management involving roles. Enhanced print functionality has been added to the grids. The ability to save grid data to an Excel format has also been enhanced.

"We are pleased to make **AtanaSuite 2009** Maintenance Update 7.2.0 available to our supported customers. This update continues our commitment to providing the best support and maintenance for the most advanced suite of Teradata productivity tools available anywhere." says Greg Hogan, AtanaSuite MU 7.2.0 Team Leader. "We value the input provided by you, our customers. It provides us the opportunity to improve upon the outstanding quality of AtanaSuite productivity tools for Teradata."

Availability – Existing **AtanaSuite 2009** customers with current support & maintenance contracts can download the maintenance update through the Atanasoft Support Center. Additional information regarding the enhancements and fixes provided can also be found in the README files available within the Atanasoft Support Center.

About Atanasoft - Atanasoft LLC is a software and services company specializing in productivity tools for Teradata. Its flagship product, **AtanaSuite**, is the world's finest suite of productivity tools available for DBAs, developers, consultants and general users.
